

## **FACILITY DIRECTORY INFORMATION**

When you become an inpatient, individuals you know such as family and friends may choose to call or visit with you while you are in the hospital. If someone calls to speak with you or comes to visit, we generally will provide information on how and where you can be reached in the hospital. For spiritual support when you are ill, we may provide general information to members of the clergy. This form tells you what information can be shared and what to do if you do not want this information shared.
